HAWKSPARE – THE COMPANY

Hawkspare Ltd is one of the world's leading suppliers of new, used and reconditioned heavy plant and equipment – and has been for more than 50 years. It is a business built on quality and reliability, to meet the highly specialised needs of customers across the globe.

We source heavy equipment that has been used on projects in North America and Europe – documented plant that has been regularly serviced and maintained from new. And for total peace of mind, all are taken into our workshops to be inspected, refurbished and reconditioned before final delivery.

Our customers are people like you – in the construction, mining and engineering industries or in organisations that need reliable, value for money plant and equipment.

**HAWKSPARE LTD IS ONE OF THE
WORLD'S LEADING SUPPLIERS OF
NEW, USED AND RECONDITIONED
HEAVY PLANT AND EQUIPMENT
— AND HAS BEEN FOR MORE
THAN 50 YEARS.**

CAT & HEAVY EQUIPMENT DIVISION

As the name suggests, this Division specialises in the supply of CAT branded products and similar types of equipment. The quality of the machines offered for sale are of such a standard that many customers believe they compare favourably with new equipment – with the added bonus of savings of up to 60%.

Our engineering team has many years experience repairing and maintaining our equipment and such has been the quality of workmanship we are proud to record that we have achieved the highest possible levels of customer satisfaction for over 10 years running.

MOBILE CRANE DIVISION

We have been involved with all types of mobile cranes since the 1990's and have built up invaluable experience within the crane sector. We currently have a state of the art database system that allows us to track all new cranes available across the UK and mainland Europe.

It means we now can offer hundreds of cranes in stock and in Europe to make sure that all our customers' demands are met. We also offer a certified crane engineer training system that can be purchased as part of the crane package to train operators in foreign countries to the highest degree of British safety standards. We also provide global safety standards that are required for all our cranes during their usage.

WHY HAWKSPARE

SOURCING

Hawkspare is almost exclusively stocked by equipment that has been operating in North America or Western Europe. Our reputation is well established and we have long-established ties with the companies from which we purchase. This means we can feel confident about the quality of the equipment and the way it has been maintained.

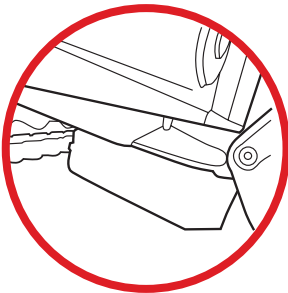

INSPECTION AND TESTING

Hawkspare has an expert team ready to inspect and test the equipment before it arrives. Our engineers can give an accurate assessment of the machine condition.

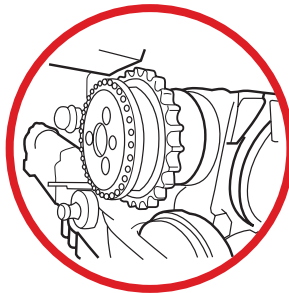

RECONDITIONING AND REPAIR

If we identify equipment that would benefit from extra work, our site in the UK is fully equipped with over 300 sq m of modern workshop space that also includes shot-blasting and painting facilities. Each of our team averages over 25 years in the industry which is reflected in the skill of their work.

HOW THE RECONDITIONING PROCESS WORKS:

Equaliser bar: New pins & bearings fitted, centre pin bore welded and machined

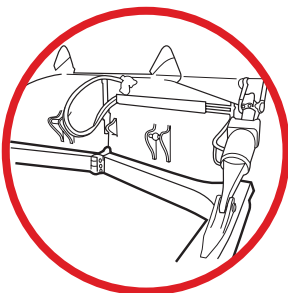

New sprocket segments fitted

Engine oil & filter replaced

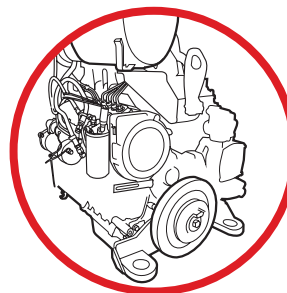

New track chains and guiding guards fitted

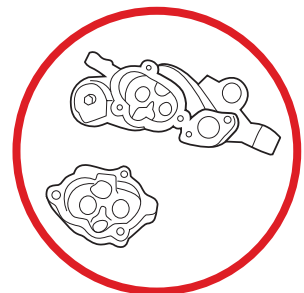

Replaced centre locations on push arms

Blade arm centre bearing and boss replaced

Engine removed to repair sump gasket leak

New engine oil pump fitted

“

HAWKSPARE WERE ABLE TO MEET EVERY DEMAND FROM OFFER TO DELIVERY OF A NEW TEREX RT780 CRANE. THEY WERE ABLE TO HELP WITH ALL ASPECTS OF AFTER SALES SUPPORT EVEN THOUGH THEY WERE HALFWAY ACROSS THE GLOBE FROM OUR OPERATION IN DOHA.

PUTTING OUR CUSTOMERS FIRST

FINANCE

We have found a growing trend in the demand for finance from our overseas clients. Fortunately, being based near one of the world's financial capitals means we are able to offer our customers the best possible financial support.

Where traditional banking finance has been an issue, we have frequently been able to overcome such obstacles which may have been preventing our clients from getting the equipment they need. Please talk to us about this service.

SHIPPING

Hawkspare are highly experienced in getting your products to site. We take care of the shipping and logistics wherever you are in the world to ensure that the equipment you need arrives in perfect condition and on time.

AFTER SALES SUPPORT

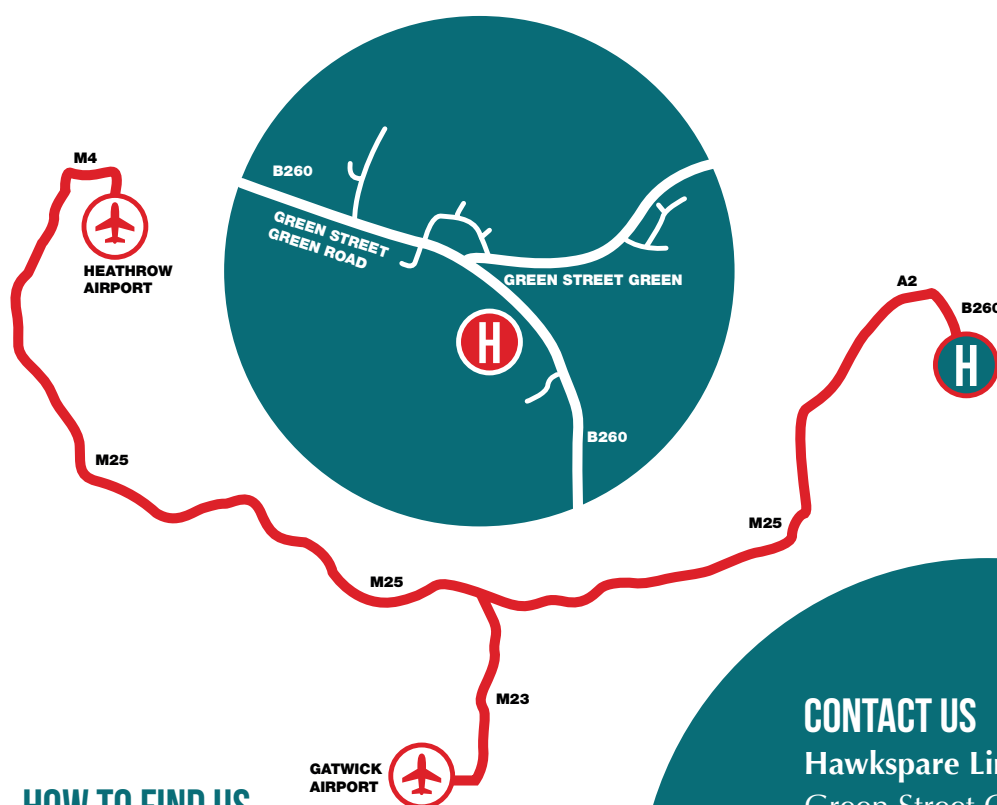

Support for you as a customer does not stop once we have completed your order. Should you need any help in the future we will be there.

GLOBAL SALES SERVICE

Hawkspare offer a worldwide sales service with offices in India, the Middle East and the UK. Our specialist sales team also has key staff serving Africa, China and the rest of Asia.
